# High-Class Entertaiment.

With the same degree of excellency this week that has prevailed in their previous bills, Messrs. McMahan and Jackson opened the third week of the vaudeville theatre at the Paris Grand last night, with an entire change of last night, with an entire change of vaudeville acts and new illustrated songs and moving pictures.

The present agreeable weather has appointed: had the effect of bringing out larger crowds, and as a consequence those crowds, and as a consequence those who have been attending nightly are well pleased with the performances and high in their praise of the management, who is sparing no pains or ex- J. pense to secure the best for the people Shire.

The bill that opened the house last night, and which will continue throughout the week, is an exceptionally good one, and one that the theatre-goers of one, and one that the theatre-goers of a lown the size of Paris rarely have an opportunity of seeing, such attractions at this time of the year being the property of the year being one, and one that the theatre-goers of Development — Dr. D. some of the most difficult feats, executed in a manner that denoted almost human intelligence and masterful training, brought forth vociferous applause. As an enter ainment for ch'dren and for older folk, we lave yet to see its equal.

Master Lewis Nessling, the song illustrator, and Miss Jennie Le Bulger, a very clever monologue artist both scored a decided hit with the audience. Avery and Carl, two black-faced comedians, in their sketch, presented some of the latest and most refined jokes, and from the first kept the audience in a state of hilarity. This team, in its cleverness, adds much to the already replete bill, and is quite a drawing

The performance was concluded with the wonderful animated pictures en-titled "The Child's Hate" and "A Trip to the Moon." Messrs. McMahan and Jackson enjoy the distinction of producing moving pictures that cannot be surpassed in subject and in the manner in which they are presented to the public, and of which too much cannot

### A Divided House.

The two Republican factions in Congress are divided between Roosvelt and anti-Roosevelt, with the latter holding control, both through the organization and by numbers. The Cannon machine intends to pass only such legislation as the leaders are compelled to, but the constant prodding by the Prescdent has so scared the membres from the close and doubtful district, that enough of them may break away from the macnine program and unite with the Democrats to pass some reform measures.

### The Darkey Vote.

The dear darkies are going to fight Taft and Teddy to a finish. In a recent document presented Speaker Cannon, Vice-President Fairbanks, Senator Foraker and other prominent Republicans, the allied negro societies of the United States said that they in-

tended to do three things: "To arouse the women of the race to the necessity of defeating Taft and

Roosevelt. "To use the churches to which colored people beiong and their pastors to the same end.

"To hold public meetings throughout the United States to protest against the nomination of Taft or Roosevelt." And just think of that. It looks as if Mr. Hearst had a hand in this business. He will open the doors of the Independence League to the dear darkies, and scoop a million votes which were cast for Teddy in 1904.

### "The Business Man's Party."

Representative Tawney, of Minnesota, chairman of the committee on appropriation, recently addressed the House of Representatives in these words: "With a deficit of sixty or sixty-five millions at the close of the present fiscal year, and with a pro:pect of a deficit of 150 millions at the end of the next fiscal year, our entire surplus in the treasury threatens to be wiped out, and it is almost certain that an issue of certificates of indebtedness will be necessary to meet our obligations. With this unpleasant prespect this Congress is appropriating more money than any of its predecessors, and it is time for the members of this ondy to ston and reflect what we are coming to."

Yet they tell us that the Republican party is the "business man's party!"

### DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better by trease of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly narmless in its effects in any condition or the temate system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

### Law of Life.

What is the true law of our moral life? That is the question which every age sets itself to solve, and to the solution of which every contributor is welcome. And the answer that George Eliot gives is that there is a reign of YOUARE NEXT AT "BUCKS." law in the moral as well as in the physical world, and that this law cannot be broken with impunity. "As a man soweth so shall he also reap."

o, Sir! You cannot palm off any substitutes in me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness?

Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?-that it is the best of all liver regulators?

August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes. 25c and 75c. All druggists.

### Cut in Two By Train.

L. & N. passenger train No. 67, which arrived here from Maysville Saturday morning at 7:35, ran over and killed Leslie Browning, aged 25 years, near Marshall Station, in Mason county. The entire train, engine, baggage car and two coaches passed over the body, outting it in half.

Browning was lying on the track at a curve, and the engineer, Thomas Rice, did not see him until the engine was upon him. The circumstances of his being on the track are not known. Conductor Everett Thompson was in charge of the train.

Browning was of a prominent family and lived near Marshall's Station. The remains were removed to his home. In moving the man's mangled body, two revolvers were found in the clothing. Later developments show that prob ably Browning had been murdered by a negro and then put on the track, as he had had some trouble with two negroes the night before.

A Lithuanian Funeral. On Sunday morning a strange funer-

al cortege passed through the Mission streets. The hearse was followed by a procession of women walking in the middle of the street. They wore dark skirts trimmed with bands of lace, embroidery, or colored strips, and all wore aprons, some of black silk or cloth, but more of sheer white embroidered corners, and fringed shawls were over their shoulders. It was not a uniform, but more in the nature of holiday attire such as one sees in Italy and France on carnival occasions or fete days. The men in the procession wore conventional dress, but their bearded faces were not American. Inquiring as to the nationality of these odd figures who made such a strange picture in San Francisco, I found they were Lithuanians, and that there is a large colony of them here, mostly employed at a laundry over toward the Potrero.-San Francisco Call.

WIGGINS is a horse of attractive conformation, 153 hands high, full of quality, and with fine feet and legs. In disposition and manners he is perfect. His colts are uniformly good colors and inherit his bold, frictionless way of going. They are generally pure gaited and trot with light shoes and few boots. Wiggins himself wore a 7-ounce shoe with no boots in front. He was foaled a trotter, and as a yearling trotted a mile over a three-quarter mile track in 2.334. He took his record when two years old and won five straight stake races and \$4,600 that season. Douglas Thomas, his won live straight stake races and \$4,600 that season. Douglas Thomas, his trainer, says he could have trotted a mile over a good track in 2.12. His colts not only trot fast young, but sell for high prices. He was himself a bold finisher and his colts are like him in this respect. For an out-cross for in-bred mares you can't do better than to breed to Wiggins, though he nicks well with mares of any breeding. No other stallion at the same age has ever accomplished more than Wiggins. No other stallion of any age ever had three two years olds to hear all stretting is one wear. ever had three two-year-olds to beat 2.18 trotting in one year.
